EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 15-18 directed to an invention non-elected without traverse. Accordingly, claims 15-18 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach: Process for continuously producing and packing finished drawn metal parts in containers identifiable by a tool from which the drawn metal parts were produced, comprising the steps of: Regarding Claim(s) 1, drawing the metal blanks in the plurality of identifiable drawing press tools and providing a plurality of segregated streams of drawn metal parts each stream being associated with one of the plurality of identifiable drawing press tools; merging the segregated streams into a single ordered stream of drawn metal parts having a repeating sequential order enabling identification of the drawn press tool in which the drawn metal part was drawn; providing a plurality of containers each of which corresponds to one of the plurality of identifiable drawing press tools; and packing the finished drawn metal parts from the ordered stream into the containers respectively corresponding to each of the identifiable drawing press tools; Regarding Claim(s) 5, drawing the metal cups in the plurality of identifiable drawing press tools and providing a plurality of segregated streams of drawn metal parts, each the stream being associated with one of the

identifiable drawing press tools; merging the segregated streams into a single ordered stream of drawn metal parts having a repeating sequential order, the repeating sequential order enabling identification of the drawing press tool in which the drawn metal part was drawn by the location of the metal parts in the ordered stream; providing a conveyor having segregated pockets for each of the drawn metal parts; inserting the drawn metal parts into the segregate pockets in the repeating sequential order; performing additional manufacturing steps on the ordered stream to provide finished drawn metal parts; providing a plurality of containers each of which corresponds to one of the plurality of identifiable drawing press tools ; and packing the finished drawn metal parts from the ordered stream into the containers respectively corresponding to the identifiable drawing press tools in combination with the other elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
